

HC-1600-10 HELICONE ANTENNA

The HC-1600-10-R combines the properties of a 10 turn helix antenna and a conical horn. The result is better performance, reduced sidelobes and increased gain over a standard helical antenna. Available in both RHCP and LHCP polarizations.

Model Number	Fo MHz	Fl MHz	Fh MHz	# turns	HPBW	Gain	Length	Weight
HC-1600-10-R	1600	1250	1950	10.0	34.3	14.0	18"	5.9 lbs
